Consultation Statement F003

ANC fosters open and effective communications and recognises its vital role in effective management of Workplace Health and Safety (WHS). We ask you to please read our Consultation Policy and ensure you are familiar with the important content and commitments.

On 20 July 2017, ANC communicated to all workers our preference to use other agreed arrangements for consultation featured in ANC's Consultation Procedure ANC-008.

Following this communication, other agreed arrangements are the adopted method of consultation.

The following Safety Representatives have been nominated and appointed.

- SA/WA: Scott Peters
- NSW/ACT: Paul Locke
- QLD: Graeme Reid
- VIC: Kristen Dacey

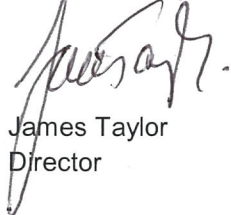

The Safety Representatives are there for you to discuss any topic or thought and idea or concern you might have about safety in the workplace and their contact details are available www.ancsafety.com.au/emergency-contacts

Each quarter the Safety Representatives will hold meetings to discuss the reported incidents and statistics, corrective actions, additional training requirements, compliance with Chain of Responsibility (CoR) and these meetings are minuted.

Safety Representatives will also undertake periodic workplace inspections and will inform you as and when these are taking place.

If you have any enquiries in regards to ANC's Safety Representatives please direct your enquiries to safety@ancdelivers.com.au

Yours sincerely,

James Taylor
Director
