

Dangerous Goods (for transport) Policy

As part of our overall workplace health and safety policy, ANC is committed to ensuring its employees, contractors and customers abide by Dangerous Goods Regulations and the Australian Dangerous Goods (ADG) Code.

ANC will:

- Only accept for transport- **declared** Dangerous Goods which DO NOT make up a placard load
- Only transport Dangerous Goods which are presented for transport with a proper Dangerous Goods shipping document
- Only transport Dangerous Goods which are presented for transport in line with packaging and segregation requirements of the ADG code
- Ensure that person/s who manifest or schedule Dangerous Goods have completed ANC dangerous goods awareness training
- Ensure that person/s who transport Dangerous Goods have completed ANC dangerous goods awareness training

The maximum quantity of dangerous good that ANC will accept, manifest, schedule, transport and deliver align to table 5.3 of ADG Code 2018 Edition 7.6- Placard load Minimum Quantities- see table page 2. Loads of Dangerous goods that exceed these quantities will not be accepted or transported by ANC, unless specifically outlined by contractual arrangement.

ANC is committed to ensuring that it complies with Dangerous Goods Regulations. ANC will achieve this by:

- Continually reviewing and updating processes
- Providing training to its staff and contractors
- Providing information to clients

Extract: Table 5.3 from the ADG Code, Edition 7.6 page 901

Table 5.3: Placard Load (Minimum Quantities)	
A placard load is defined as a load in a cargo transport unit, as defined in 1.2.1, with either:	
Dangerous Goods in Cargo Transport Unit	Placard Load Quantity
(a) Any dangerous goods in a receptacle (other than an article) with a: <ul style="list-style-type: none"> • capacity > 500 L; or • net mass > 500 kg 	One or more such receptacles (i.e. one or more placardable units)
(b) Any quantity of: <ul style="list-style-type: none"> • Division 2.1 (except Aerosols); or • Division 2.3; or • Packing group I of any Class or Division 	Aggregate quantity of all dangerous goods in the cargo transport unit \geq 250 kg(L)
(c) Division 6.2 Category A	All quantities
(d) Division 6.2 (other than Category A)	\geq 10 kg(L)
(e) Limited quantities dangerous goods and / or domestic consumer commodities (defined as 1.2.1) - See Note 5	\geq 2,000kg(L)
(f) Loads where a – e do not apply	Aggregate quantity of dangerous goods \geq 1,000 kg(L) - unless the load is:

³⁸ The terms 'placardable unit' and 'transport unit' used throughout this Chapter are defined in 1.2.1.1 and 1.2.1.2.10 respectively.
